

EcoFlameRetardant-P-65

Isopropylated Triaryl Phosphate

Chemical Name: Isopropylated Triaryl Phosphate

Brand Name: EcoFlameRetardant P-65

Equivalent Brand: Reofos 65

CAS NO: 68937-41-7

Chemical Formula: C₁₈H₁₅R₃O₄P

Molecular Weight: 390

Application:

EcoFlameRetardant P-65 is a flame retardant plasticizer used primarily in PVC and phenolic resins.

Technical Data Sheet:

Analysis Item	Specification
Appearance	Colorless or light yellow transparent liquid
Specific Gravity (20/20 C)	1.15- 1.19
Acid Value(H ₃ P ₀₄)	0.1max
Color Index(APHA Pt-Co)	80max
Refractive Index	1.550-1.556
Water Content Qb	0.1max
Flash Point c	220min
Phosphorus Content %	8.05-8.15

Packing:

EcoFlameRetardant P-65 was packed in 200Kg drum, 4 barrels on pallet,

Total 16mt per 20'FCL
