

EcoOilField-B-1000

Calcium Bromide • Zinc Bromide Solutions

Chemical Name: Calcium Bromide • Zinc Bromide Solutions

Brand Name: EcoOilField B-1000

Application:

Calcium Bromide • Zinc Bromide solution is used to formulate high density, solids-free completion, workover and packer fluids in a density range of up to 19.2 ppg (2.3 s.g).

Zinc bromide/calcium bromide solutions are stable, non-flammable and non-explosive. In intense fires, hydrogen bromide or bromine fumes may be released.

Technical Data Sheet

Analysis Item	Index
Appearance	yellowish to transparent liquid
Zinc Bromide content (by weight) %	54-57
Calcium Bromide content (by weight) %	21-23
Density: (25°C condition):	2.3g/ml min
Density: (20 °C condition):	2.5g/ml min

Packing:

Packed in 55gal **HOPE** drums of 460kg net, or in 1m³ IBC drums of 2300kg net.
