

EcoWaterTech-B-200

BROMOPOL BIOCIDES

Chemical Name: 2-Bromo-2-nitro-1,3-propanediol(Bromopol)

Brand Name: EcoWaterTech B-200

CAS NO.: 52-51-7

Chemical Formula: C₃H₆BrN₀₄

Molecular Weight: 200.0

Application:

EcoWatertech B-200 is widely used in industrial circulating water biocide, germicide, paper pulp, paint, plastic, timber-cooling circulating water and other industries. In addition, it can be used to prevent daily-used cosmetic products from mold and corrosion

Technical Data Sheet:

Items	Specification
Appearance	White crystalline
Powder Assay	99.0% min
Melting Point	123- 130 C

Packing:

EcoWatertech B-200 is packed in 25KGs paper drum or 25KGs paper bag.

Remarks:

Other specifications are in compliance with the standards of British Pharmacopoeia version BP 98.
